Detail-oriented B.Tech Computer Science graduate with expertise in Application Development, Database Management, and Production Support concepts. Skilled in Python, SQL, React.js, Node.js, and web technologies with hands-on experience through Full Stack and Data Engineering projects. Demonstrated effective written and verbal communication, resolved complex problems and successfully adapted to shift-based environments and extended hours to maintain workflow continuity.

Work Experience

Full Stack Developer Intern (MERN Stack)

SmartInternz

May 2025 - Jun 2025

- Built and tested web application components using React.js, Node.js, and MongoDB.
- Developed and implemented front-end and back-end integration for projects, resulting in a improvement in workflow efficiency.

Data Engineering Virtual Intern

AWS Academy

Apr 2024 - Jun 2024

- Proactively mastered data pipeline concepts, cloud storage solutions, ETL processes, and data visualization, enhancing project efficiency .
- Worked with AWS services for data handling and reporting.

Education

Rise Krishna Sai Gandhi Group of Institutions, JNTUK

B.Tech, Computer Science & Engineering (Data Science)

2022 - 2026

CGPA: 8.2/10

Sri Vishnu Junior College

12th | Andhra Pradesh

2020 - 2022

Percentage: 81.5%

JMJ English Medium High School

10th | Andhra Pradesh

CGPA: 9.7/10

Skills

Hard Skills

Python, Java, C, HTML, CSS, JavaScript, Database Management (SQL, MongoDB), WordPress Development

Soft Skills

written and verbal communication skills, problem-solving abilities, adaptability

Projects

Healthcare Analytics & Monitoring Dashboard

- Developed a responsive dashboard application to efficiently monitor and visualize healthcare data, resulting in improved data accessibility for [number] users and reducing manual reporting time.
- Integrated Python-based workflows to enhance analytics and reporting processes, resulting in improvement in efficiency or accuracy.
- Improved user interaction through interactive visualization components.

Learnhub: Online Skill Enhancement Platform

- Built a full-stack learning platform using React.js, Node.js, MongoDB, and Python.
- Implemented authentication, resource management, and responsive UI modules.
- Supported scalable application development and database integration.

Certifications

Python Full Stack Developer – EduSkills

Python Basics for Data Science – Edx

Data Visualization – Infosys Springboard

Introduction to IoT (12 Weeks) – NPTEL

Achievements

Ranked in Top 5 in Coding Competition at Rise Krishna Sai Gandhi Group of Institutions.

Actively engaged in a variety of professional seminars to enhance industry knowledge and expand professional networks.

Completed AICTE Virtual Internships in emerging technologies.

Engaged in cross-cultural events to foster teamwork and enhance communication skills in diverse settings.
